an EnPro Industries company

## EXALIGN ${ }^{\text {™ }}$

## Self-Aligning Pedestal and Flange Bearing Housing

## CHARACTERISTICS

- Adjusting bearing for misalignment equalisation
- All-purpose as flange (EXALIGN ${ }^{\top M}$ DF and FL) or pedestal bearing (EXALIGN ${ }^{\text {TM }}$ PB), suitable for high loads
- Self-aligning spheric avoids edge load to the bearing
- Adjustable up to $\pm 5^{\circ}$
- Spheric is secured against distortion
- Depending on choice of housing, spherics and bearings, simple to most demanding bearing solutions are possible
- For optimum design solutions, various bearings from the GGB product program are applicable

## AVAILABILITY

Made to order: Pillow Block, Plummer Blocks

## APPLICATIONS

Inustrial:Wind energy plants, car washes, cleaning machines, drum systems, bevelling equipment, handling systems, conveyor belts (pulleys), printing machines, heating and ventilation equipment, hoists, cranes, textile machinery, special machine engineering, bakery equipment, marine equipment.

For additional market / product offerings, go to https://www.ggbearings.com

The Global Leader
in High Performance Bearing Solutions
